

READING COMPREHENSION

Bralna naloga, ki je pred tabo, se nanaša na trenutno dogajanje. Verjamemo, da si o tem slišal/a že res veliko, pa vseeno 😊

1.: Preberi priloženo besedilo.

2.: V zvezek zapiši naslov **Coronavirus**.

3.: Manj znane/neznane besede izpiši. S pomočjo slovarja (na internetu: www.pons.si) poišči njihove prevode in jih zapiši v zvezek.

4.: Spodnje tri naloge so različnih težavnostnih stopenj – prva je najlažja, druga je srednje zahtevna, tretja pa je težja. Učenci, ki z angleščino nimate težav, rešite vse tri. Ostali rešite prvo, nato pa vsaj poskusite rešiti še drugo. V zvezek zapiši samo rešitve.

.....

1. naloga: Odloči se, ali so trditve pravilne (T – true) ali napačne (F – false).

- | | | |
|--|---|---|
| - The virus is more dangerous for adults and older people. | T | F |
| - The virus spreads very slowly. | T | F |
| - People should stay at home as much as possible. | T | F |
| - We have to wash our hands, cough into our arms and avoid crowds. | T | F |

2. naloga: Dopolni z ustreznimi besedami.

- Schools are not _____ and people are asked to stay _____.
- To slow down the virus, we have to _____, cough into _____ and _____ crowds.

3. naloga: Zapiši odgovore na spodnja vprašanja.

- How does the Coronavirus spread?
- What does the government do to slow down the virus?
- Why is it important to slow down the virus?

WHAT'S UP WITH THIS **CORONAVIRUS?**

The coronavirus is a germ. It's so small that we can't see it.

MWAH HA HA!
I'm invisible!

To slow down the virus and to keep it from making too many people sick, many schools are now closed and people are asked to stay home as much as possible.

When kids get this virus, most of the time it's no big deal. But adults and especially older people can get really sick.

People who are sick are asked to stay at home alone to keep the virus from spreading to new people.

It's ok, Granama,
we'll talk on the phone instead!

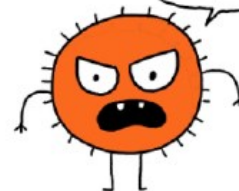

The Coronavirus travels from person to person if they touch or come close together. It can spread to many people very fast.

There's a new home
for you, my child!

It's hard not to be together but it makes it even harder for the virus to spread to new people.

Oh, shoot.

Even when we don't feel sick, we can help slow down the virus by washing our hands often, coughing into our arms and avoiding crowds.

When we slow down the virus, we give scientists and hospitals more time to find a cure and to take care of sick people.

If everyone makes an effort, we can protect each other and save many lives!

2. naloga: V učbeniku, str. 53, preberi besedilo »History: the plague«, kar je tudi naslov v zvezku.

Reši nal. 1 in 2.

V zvezek izpiši in prevedi naslednje besede:

terrible

disease

to break out

nearly

bubonic

plague

to cause

a bunch of flowers

a flea

to spread

medieval

mud

narrow

rubbish

an outbreak

a red cross

wooden
